

Structural Round Brine Tanks

for Residential and Commercial Applications

A heavy-duty design and FDA-approved materials give these blow-molded brine tanks a well-deserved reputation for quality. Our high standards of production further guarantee trouble-free performance. Brine tanks come in different sizes and colors. Available with blow-molded lid, or assembled with salt grid, brine well and cap, overflow fitting and safety brine valve assembly.

Benefits

- Attractive styling
- Heavy-duty design
- Blow molded from FDA-approved materials
- Rigid, high-impact, non-toxic polyethylene
- Exceptional resistance to stress cracks
- Provides years of trouble-free service
- Designed to reduce salt bridging
- Optional molded salt grid for uniform brining
- Can be shipped with other water treatment components to reduce total shipping costs
- Shipped in a durable re-shipper carton

Options

- Slotted brine well with cap
- Safety brine valve assembly (2310)
- Salt grid
- Injection molded lid (custom logos available)

Optional: Brine well cap, safety brine valve assembly and salt grid.
